STATE COLORED NORMAL SCHOOL FAYETTEVILLE.

HISTORY.

This Institution was established by the State Board of Education, under an act of the General Assembly of 1876-'77, for the training of teachers for the colored schools of the State. It has completed eleven school years of nine months each, in which there has been enrolled five hundred and seventeen different pupils, from sixty-four counties.

Eighty-three have completed the prescribed course. It is estimated that not over five per cent. of the graduates fail to devote themselves to the educational work with acceptability. A large number of the undergraduates also engage in teaching. It is estimated that over three thousand children were under the instruction, last winter, of the graduates and students of this school.

LOCATION.

The school is located at Fayetteville, on the Cape Fear River. Fayetteville is a very healthy and pleasant town, and is easily accessible by steamer from Wilmington, and by the Cape Fear and Yadkin Valley Railway from Greensboro *via* Sanford, where connection is made with the Raleigh and Augusta Railroad. Also by the southern extension of the Cape Fear and Yadkin Valley Railway to Shoe Heel, where connection is made with the Carolina Central Rail Road, and the Wilmington & Weldon Rail Road from Wilson.

The school is taught in a large and commodious building, well adapted to the purpose, and furnished free of rent by the colored people of Fayetteville. Efforts are being made to enlarge the building to meet the increased demands made upon the school for admission.

MANAGEMENT.

The management of the school is vested in the Principal and the Local Board of Managers, who are appointed by the State Board of Education.

NATURE AND DESIGN.

A Normal School is neither a college, a law, nor a theological school, but a *school for the thorough instruction and systematic training of students who wish to become teachers*; hence the design of this school is

I. Thorough instruction in all the branches required to be taught in the public schools of the State.

II. The best methods of teaching these branches and governing the schools, and

III. The cultivation of the habit of thinking clearly and systematically, and the practice of delivering the thoughts and explanations in a lucid and pleasant manner. To accomplish this our course of study, practice in teaching, professional library and rhetorical exercise are admirably adapted.

QUALIFICATIONS OF A GOOD TEACHER.

1st. Good health, good common sense and sound judgment.

2nd. A thorough knowledge of the branches he proposes to teach.

3rd. Aptness to teach. He may be rich in knowledge, but it will be of little value to his pupils unless he has the skill of communicating it to them.

4th. Perfect self-control. He cannot govern others when unable to govern himself.

5th. Love for his calling. Any work is easily done when prompted by love. Whatever one does willingly is no trouble.

CONDITIONS OF MEMBERSHIP.

Every applicant for admission must present sufficient evidence of good moral character, and pass a satisfactory examination in Reading, Spelling, Writing,

and the fundamental Rules of Arithmetic (as far as Fractions) to enter the lowest class. For the higher grades proportionately higher scholarship will be required.

Each student must promise, upon becoming a member of the school, to observe the Rules and Regulations of the school; to take good care of the books furnished for his use, and to return the same, in good order, before leaving school; and, also, to teach in the public schools of the State for three years, as far as practicable.

EXPENSES, AID, ETC.

Tuition is free to all residents of the State. The books required are furnished as far as possible from the school library without charge.

Board, including lodging, fuel, lights and washing, can be procured in private families at reasonable prices.

Students will be received at any time, but are especially requested to enter, if possible, at the beginning of either the Fall, Winter or Spring term. The examinations held at those times will enable the teachers to properly classify the candidates for admission.

DISCIPLINE.

Students are required to conduct themselves as ladies and gentlemen. They are treated with confidence from the first, and the effort is made to govern rather by the law of mutual respect than by severer methods of discipline.

Students must attend school regularly unless prevented by imperative necessity. A daily record of attendance and deportment is kept, and any student who falls below a certain percentage is dropped from the roll.

Intemperance, profane or ungentlemanly language is positively forbidden.

Students are liable to be suspended or expelled at any time for violation of the rules, or for unsatisfactory conduct in any respect.

EXAMINATIONS.

Oral and Written Examinations of all the students will be held during the first week of each term, and Public Examination and Exhibition annually, at the close of the session.

CERTIFICATES.

Students who complete the course of study prescribed for the third year, and whose deportment, while members of the school, has been satisfactory, will receive certificates of recommendation as teachers for Public Schools. Those who complete the studies of the Junior and Middle years will be entitled to receive certificates of higher grade. Those who complete the prescribed course will be entitled to Diplomas or Certificates.

In all cases males must be at least eighteen and females sixteen years of age before receiving teacher's certificate of any grade.

LIBRARY, APPARATUS, ETC.

The School has a small but well-selected Library, including the *Encyclopædia Britannica*, and is supplied with the necessary Maps and Globes, Musical, Historical and Writing Charts; and, in addition to these, a set of apparatus for the illustration of Physics or Natural Philosophy.

SOCIETIES.

The Normal Literary Society, which meets Friday evening of each week, and the Normal Band of Hope Temp.,) which meets monthly, are Societies formed among the students, and subject to their own control, under the supervision of the teachers. They are excellent means for drill in parliamentary usage and business habits.

NON-SECTARIAN.

This School is not conducted in the interest of any religious denomination or any political party. The
